

Miguel Alejandro Ojeda Cabrerias

Full Stack Web Developer

✉ mo5923122@gmail.com ☎ +584241416295 📍 Caracas, Venezuela 💼 miguel-ojeda- 🌐 Alejandro959521

PROFILE

Full Stack Developer with hands-on experience building web applications using React, TypeScript, Node.js, NestJS, Python, PostgreSQL, and REST APIs. Experienced in developing frontend interfaces, backend services, database-driven applications, authentication systems, and AI-powered applications. Previously worked for 5 years as an Electronics Laboratory Technician, gaining experience in troubleshooting, technical precision, and process management — a strong foundation of discipline and problem-solving that I now apply to software development.

SKILLS

Languages: TypeScript, JavaScript, Python, SQL, **Frontend:** React, Next.js, Tailwind CSS, Vite, React Router, **Backend:** Node.js, NestJS, Express.js, Flask, **Databases:** PostgreSQL, Sequelize, SQLAlchemy, **APIs & Testing:** REST APIs, GraphQL, Jest, Postman, **Tools:** Git, Docker, Insomnia, Postman.

PROJECTS

- AI Chat (React + NestJS) (Link)** [↗](#)04/2026 – 07/2026
Full-stack AI chat web application. Built with a NestJS **backend** integrated with the Groq API and Cloudflare for image generation, featuring support for file uploads, image processing (Multer, Sharp), and data validation. **Frontend** developed in React 19 + TypeScript + Vite with Tailwind CSS, Markdown response rendering, and routing managed by React Router. (Repo1 [↗](#)) (Repo2 [↗](#))
- Cumbres Altas (Hotel Booking System) (Link)** [↗](#)11/2025 – 04/2026
Full-stack hotel reservation management application, developed to gain deeper expertise in secure authentication, relational database modeling, and API consumption between decoupled frontend and backend architectures. **Backend** built with Node.js and Express featuring JWT authentication (Passport), password encryption with bcrypt, schema validation using Joi, and centralized error handling. Relational database modeled in PostgreSQL using Sequelize (including versioned migrations). Responsive **frontend** developed with React, featuring an interactive date picker calendar (react-datepicker) and styled with Tailwind CSS. (Repo [↗](#))
- Enfoco (E-commerce Platform) (Link)** [↗](#)07/2025 – 09/2025
E-commerce platform for selling paintings and artwork, focused on a comprehensive product catalog and efficient image management tailored for a visually driven business. **Backend** built with Flask, using SQLAlchemy and Alembic for database migrations, PostgreSQL, and an admin panel powered by Flask-Admin. Cloud-based product image storage managed with Cloudinary. Responsive **frontend** developed with React, utilizing React Router for navigation and styled with Tailwind CSS.(Repo [↗](#))
- QuantumStock (Inventory System) (Link)** [↗](#)09/2023 – 02/2024
Full-stack inventory management application featuring secure authentication and interactive data visualization charts to support data-driven decision-making. **Backend** built with Flask, using SQLAlchemy with database migrations, JWT authentication (Flask-JWT-Extended), and an admin dashboard powered by Flask-Admin. **Frontend** developed with React, featuring interactive analytics dashboards (Chart.js), real-time toast notifications (Sonner), and media carousels (Swiper). Protected REST API with CORS configuration and centralized error handling. (Repo [↗](#))

EDUCATION

- Centro Venezolano Americano (CVA)** [↗](#), Intermediate Level B206/2025 – 04/2026
- 4Geek Academy** [↗](#), Full Stack Developer05/2023 – 09/2023
- Universidad Católica Andrés Bello** [↗](#), Telecommunications Engineering10/2014 – 02/2020
Completed up to 7th semester

PROFESSIONAL EXPERIENCE

- Cendit** [↗](#), Electronics Laboratory Technician & LPKF Prototyping Line Operator05/2019 – 05/2024 | Caracas, Venezuela
Responsible for managing and supervising the Telecommunications Electronics Laboratory, including the LPKF prototyping line for PCB fabrication. Tasks included track etching, multilayer board plating, SMD soldering, screen printing, and solder mask application. Also handled inventory management for electronic components and equipment, as well as diagnostics and repair of electronic boards, switched-mode power supplies, and medical equipment.
